

## DAFTAR ISI

|  |      |
|--|------|
| ABSTRAK .....  | i    |
| <i>ABSTRACT</i> .....                                | ii   |
| KATA PENGANTAR .....                                 | iii  |
| DAFTAR ISI .....                                     | v    |
| DAFTAR GAMBAR .....                                  | viii |
| DAFTAR TABEL .....                                   | x    |
| DAFTAR SIMBOL .....                                  | xv   |
| DAFTAR LAMPIRAN .....                                | xix  |
| BAB 1 PENDAHULUAN .....                              | 1    |
| 1.1 Latar Belakang Masalah .....                     | 1    |
| 1.2 Perumusan Masalah .....                          | 2    |
| 1.3 Maksud dan Tujuan .....                          | 2    |
| 1.4 Batasan Masalah .....                            | 2    |
| 1.5 Metodologi Penelitian .....                      | 3    |
| 1.6 Sistematika Penulisan .....                      | 5    |
| BAB 2 LANDASAN TEORI .....                           | 6    |
| 2.1 <i>Software Reengineering</i> .....              | 6    |
| 2.1.1 Taksonomi <i>Software Reengineering</i> .....  | 6    |
| 2.1.2 Pendekatan <i>Software Reengineering</i> ..... | 8    |
| 2.2 <i>Enhanced Reengineering</i> .....              | 9    |
| 2.3 <i>Design Pattern</i> .....                      | 11   |
| 2.4 <i>Maintainability Index</i> .....               | 14   |
| 2.5 <i>Halstead Metrics</i> .....                    | 18   |
| 2.6 <i>Cohesion dan Coupling</i> .....               | 21   |
| 2.7 <i>Refactoring</i> .....                         | 24   |
| 2.8 <i>Understandability</i> .....                   | 26   |
| 2.9 Android .....                                    | 28   |
| 2.9.1 <i>Android Version</i> .....                   | 28   |

|   |  |          |
|---|--|----------|
| 2.9.2                                       | <i>Android Market</i> .....  | 29       |
| 2.9.3                                       | <i>Android Native Application Architectures</i> .....              | 29       |
| 2.10  | <i>Model View ViewModel (MVVM)</i> .....                           | 30       |
| 2.11  | <i>Design Principles</i> .....                                     | 32       |
| 2.12  | <i>Clean Code</i> .....  | 33       |
| 2.12.1                                      | <i>Meaningful Name</i> .....                                       | 34       |
| 2.12.2                                      | <i>Clean Function</i> .....  | 37       |
| 2.12.3                                      | <i>Clean Comment</i> .....   | 39       |
| 2.12.4                                      | <i>Clean Error Handling</i> .....                                  | 41       |
| 2.12.5                                      | <i>Clean Object and Data Structure</i> .....                       | 42       |
| 2.12.6                                      | <i>Clean Class</i> .....   | 45       |
| 2.13  | <i>Cyclomatic Complexity</i> .....                                 | 47       |
| 2.14  | <i>S-Health SDK</i> .....  | 48       |
| 2.15  | <i>Analisis dan Design Berorientasi Objek</i> .....                | 48       |
| 2.16  | <i>Pittsburg Sleep Quality Index</i> .....                         | 51       |
| 2.17  | <i>Spotify SDK Android</i> .....                                   | 52       |
| 2.18  | <i>Android Studio</i> .....  | 52       |
| 2.19  | <i>Android Jetpack</i> .....                                       | 52       |
| <b>BAB 3 ANALISIS DAN PERANCANGAN</b> ..... |  | <b>1</b> |
| 3.1   | <i>Analisis Kelayakan</i> .....                                    | 1        |
| 3.1.1                                       | <i>Analisis Kompleksitas</i> .....                                 | 1        |
| 3.1.2                                       | <i>Analisis Maintainability</i> .....                              | 10       |
| 3.1.3                                       | <i>Analisis Reusability</i> .....                                  | 31       |
| 3.1.4                                       | <i>Analisis Understandability</i> .....                            | 33       |
| 3.2   | <i>Analisis Kebutuhan</i> .....                                    | 51       |
| 3.2.1                                       | <i>Aplikasi Pembantu Meningkatkan Kualitas Tidur</i> .....         | 51       |
| 3.2.2                                       | <i>Analisis Konfigurasi Aplikasi Android</i> .....                 | 52       |
| 3.2.3                                       | <i>Analisis Data Aplikasi Lama</i> .....                           | 53       |
| 3.2.4                                       | <i>Use Case Diagram Pembantu Meningkatkan Kualitas Tidur</i> ..... | 54       |
| 3.2.5                                       | <i>Analisis API Web Service</i> .....                              | 56       |
| 3.3   | <i>Restrukturisasi Spesifikasi Kebutuhan Sistem</i> .....          | 57       |

|  |   |     |
|--|---|-----|
| 3.3.1                                  | Pemetaan Konsep <i>Clean Code</i> dan <i>Design Pattern</i> ..... | 57  |
| 3.3.2                                  | Pemodelan Data Baru .....   | 76  |
| 3.3.3                                  | Konfigurasi Android Sistem Baru .....                             | 84  |
| 3.3.4                                  | Perancangan API Web Service Sistem Baru .....                     | 85  |
| 3.4                                    | <i>Design to Code</i> .....                                       | 87  |
| 3.4.1                                  | Rancangan <i>Class Diagram</i> Aplikasi Android .....             | 87  |
| 3.4.2                                  | Rancangan <i>Class Diagram</i> Aplikasi Web .....                 | 116 |
| BAB 4 IMPLEMENTASI DAN PENGUJIAN ..... |   | 122 |
| 4.1                                    | Implementasi .....  | 122 |
| 4.2                                    | Evaluasi Performa .....   | 129 |
| 4.2.1                                  | Evaluasi Kompleksitas .....                                       | 129 |
| 4.2.2                                  | Evaluasi <i>Maintainability</i> .....                             | 137 |
| 4.2.3                                  | Evaluasi <i>Reusability</i> .....                                 | 139 |
| 4.2.4                                  | Evaluasi <i>Understandability</i> .....                           | 140 |
| BAB 5 KESIMPULAN DAN SARAN .....       |   | 159 |
| 5.1                                    | Kesimpulan .....  | 159 |
| 5.2                                    | Saran .....   | 159 |
| DAFTAR PUSTAKA .....                   |   | 160 |
