ABSTRACT…….I

***ABSTRK*……..II**

ACKNOWLEDGEMENT……III

LIST OF FIGURES……...IV

LIST OF TABLES…….V

LIST OF SYMBOLS…….....VI

CHAPTER 1 INTRODUCTION

1.1 Background……1

1.2 Identification and Problem Formulation……....4

1.2.1 Problem Identification……..……..4

1.2.2 Formulation of Problem……..6

1.3 The Purpose and Objectives……...6

1.3.1 The Purpose of the Research..…….6

1.3.2 The Purpose of the Study……....7

1.4 Usefulness of the Study……..8

1.4.1 Practical Use……..……..8

1.4.2 Academic Use……..8

1.5 Problem Limitation…….9

1.6 Location and Time Research…….10

1.6.1 Research Time……..……..10

1.7 Writing System……..11

CHAPTER 2 THEORITICAL

2.1 Understanding the System…….14

2.2 Components of Information System…….…..14

2.3 Information System and Fundamentals…….15

2.4 Data Concept……..15

2.4.1 Data…….15

2.4.2 Data verse Information……15

2.4.3 Database……...16

2.4.4 Identification of Entities……..16

2.4.5 Entity Relationship Diagram……....16

2.4.6 Tables……18

2.4.7 Record……..….18

2.4.8 Field……18

2.4.9 Attributes……18

2.4.10 Primary Key……..19

2.4.11 Foreign Key……...20

2.4.12 Data Modeling……...20

2.4.13 Rational Database……..20

2.4.14 Database Management System (DBMS)……...21

2.5 Database in Network Environment…….21

2.5.1 Network Environment……..21

2.5.2 Client/Server Architecture……...22

2.5.3 Client Server…….22

2.5.4 Database Server……23

2.5.5 Web Server……...23

2.5.6 Web Browser……23

2.5.7 Web Page……..23

2.5.8 Web Site……24

2.6 Tools and Language Use…….24

2.6.1 HTML……...24

2.6.2 PHP……...25

2.6.3 MySQL…….25

2.6.4 Apache Server……...26

2.6.5 JavaScript……..26

2.6.6 Java Programming…….…....27

2.6.7 CSS (Cascading Style Sheet)……31

2.6.8 Unified Modeling Language (UML)……31

2.6.9 SQLite……..36

2.7 Scheduling……37

2.7.1 Notion of Scheduling……37

2.7.2 Scheduling Criteria……37

2.7.3 Physic Class……..40

2.8 Network Topology……..40

2.8.1 Basic Types of Network Topologies……...40

CHAPTER 3 OBJECT AND METHOD

3.1 Research Object……..43

3.1.1 A Brief History of the Organization……43

3.1.2 Management Organization Structure……..43

3.1.3 Job Description……43

3.2 Research Method……46

3.2.1 Research Design……..46

3.2.2 Types and Data Collection Methods……...47

3.2.2.1 Primary Data Source……....47

3.2.2.2 Secondary Data Source……47

3.2.3 Method and System Development Approach…….48

3.2.3.1 System Approach Method……...48

3.2.3.2 System Development Method…….49

3.3 Analysis of the Current System…….55

3.3.1 Document Analysis…….55

3.3.2.1 Scenario Use Case Diagram……59

3.3.2.2 Scenario Use Case Continuation…….59

3.3.2.3 Activity Diagram System Running…….64

3.3.2.4 Continuation of System Evaluation……69

CHAPTER 4 RESULTS AND DISCUSSION

4.1 System Design……..72

4.1.1 System Design Objectives…….72

4.1.2 Overview of the proposed System…….72

4.1.3 Proposed Design Procedure……...73

4.1.3.1 Use Case Diagram……...73

4.1.3.2 Use Case Scenarios…….74

4.1.3.3 Activity Diagram……....78

4.1.3.4 Sequence Diagram……..84

4.1.3.5 Class Diagram…….....89

4.1.3.6 Deployment Diagram...……..90

4.1.3.7 Component Diagram…..……93

4.1.3.8 Deployment Diagram…….94

4.2 Interface Design……...94

4.2.1 User Structure Menu…….94

4.2.2 Admin Structure Menu……..97

4.2.3 Design Input……...98

4.3 Architectural Network Design……100

4.4 Database Implementation (SQL Syntax)……100

4.5 Implementation Interface……102

4.6 Testing……109

4.6.1 Testing Plan……..110

4.6.2 Cases and Test Results…….111

4.7 Conclusion……...115

CHAPTER 5 CONCLUSION AND RECOMMENDATION

5.1 Conclusion……...116

5.2 Recommendation……117

REFERENCE……...118
