ABSTRACT

Budhiyono, The Role of European Union through Multi Donor Trust Fund for Aceh and North Sumatera (MDTFANS) on Supporting Aceh's Reconstruction Processes After Tsunami Disasters 2004, Department of International Relation Sciences, Faculty of Social and Political Sciences, Indonesian University of Computer, Bandung, 2009.

The problem of this research are the earthquake and tsunami disasters which dissolved Aceh at December 2004, where the disaster caused a large part damage in Aceh. The recovery efforts by reconstruction processes have to be done by Government of Indonesia as soon as possible. But, the Government of Indonesia realized that on the recovery efforts they couldn't do that efforts by self. A high level of damages and limited funds of the Government of Indonesia are the main reason. Therefore, the Goverrntment of Indonesia needs foreign aids on recovery efforts where's one of the aids come from European Union as the biggest contributors.

The purposes of this research is to know how the role of European Union on Aceh's reconstruction processes after tsunami disaster at 2004, where's through Multi Donor Trust Fund for Aceh and North Sumatera (MDTFANS), European Union by it's Commission is the one of co-chairs in MDTFANS who responsible to managing and coordinating the reconstruction processes in Aceh.

The method of this research is using analytical descriptive whereas through the method we able to observe the International Cooperations also the role of International Organizations on the recovery efforts in Aceh after tsunami disasters.

Based the case anlytically we formulated the hypothesis as follow: ***" If the grants which gave by The Euoropean Union through MDTFANS could be maximize appropriate with the MDTFANS's projects, so Aceh's reconstruction processes after tsunami disaster at 2004 would be run well ".***

The result of this research show that European Union had an important role on the recovery efforts in Aceh which is shown by the increase of the success level from every reconstruction projects in Aceh.
