SMAN 1 CICALENGKA is one of state senior high school in East Bandung, but it isn't provide their school by media to deliver information for society and their' students. Based on that reason, the writer made "based on information system web", so the student s gets information about their school easily.

The aim of "Information Sytem of Academic in SMAN 1 Cicalengka Based On Web" is student can get information about learning and teaching process in their school easily, for example, they can brows about grade, news, class arrangement, etc.
