CHAPTER I

INTRODUCTION

1.1. Background

"Experience is the best teacher". The meaning of this old proverb is that you can get all the lesson that you need but without experience to apply your lesson all of it would not be usefull. The writer, as student, has a responsibility to polish his skill therefore the writer does the job training. The implementation of job training is to provide a chance for the students to apply all the skills they get in the class and to apply the experience on how to work responsibly and full of discipline. Finally, through the Job Training, the writer can learn how to handle work load and can adapt with work environment situation.

The report is entitled "*The translation on the text that desribe the picture inside brochure by using gerund*". The reason why the writer choses this topic because gerund is based on a verb and therefore expresses action or a state of being. This is interesting because we can see how gerund can ease readers in understanding text brochures.

The writer chooses Pusat Litbang Sumber Daya Air because; first, the company has program in international communication related with the use of English languange, therefore, I can practice, polish and apply my English languange skill. Second, the company needs a translator for the program.

1.2. Objectives

1. The writer writes the report in order to confirm that the job training was done responsibly.
2. The application of all the lesson that writer get from the class in order to finish the task given during the job training.

1.3 Method

The writer uses three steps when collecting the data for the job training report, first step is by collecting the brochure, second step is by making an observation on the text that describe the activity or process, third step is by making an explanation about how the text can describe the picture effectively. The writer uses descriptive method to analyze the data. According to Travers (1978) "Descriptive method is to describe the nature of situation as it exist at the time of the study and to explore the causes of particular phenomena".

1.4 Place and Time of Job Training

The writer took the job training in Pusat Litbang Sumber Daya Air (PUSAIR) which is located at Jalan Ir. H. Juanda No. 193 Bandung. The job training took place for approximately a month, beginning from 3rd until 30th August, 2010. The time of the job is from 9 to 11 o'clock.
