Merdeka Komputer *is a store engaged in selling a wide range of needs of computer and computer accessories located west Java city of* Bandung. *Currently the shop* Merdeka Komputer *already introduced its product by using the online media*, *but* Merdeka Komputer *do not have a system that can introduce the product as well as handle the sales. Given this, they invented an e-commerce website that can introduce new products and sales online.*

Objectives to be achieved in the manufacture of e-commerce website that is helping the store to memperkenalkann products to the public, helping increase sales of products, providing convenience to customers to order products and try to improve the image Merdeka Komputer *store.*
