CHAPTER IV

CONCLUSIONS AND SUGGESTIONS

4.1 Conclusions

Posters are one of the effective media to learn English especially for beginner level besides games or educational videos. Using pictures on posters will make learning English easier for the learners will capture what they learn by remembering the pictures. In addition, good design on posters will also help the marketing of the posters.

4.2 Suggestions

For students who want to take entrepreneurship as job training, it is better to build a company accompanied by at least one person who knows how to run it or has experience in entrepreneurship. Therefore, the students will know the procedures in building a company.

For the English Department, it is suggested to consider arranging courses such as entrepreneurship, commercial English, public speaking, and language skill in the previous semester before students should take the job training course. It would be more helpful for them to actually learn something then apply it than to try to apply something that has not been learned yet.

For the Faculty of Letters, may help the students by providing certain places where they can do job training properly. Therefore, the students will apply what they learn in campus appropriately.
