Busan is the second largest city after Seoul, a city famous by sea and shoping place has a wide variety of attractions that are well known to many countries. This is due to the uniqueness and the beauty of nature that is owned by the Busan city.

As a metropolitan city government build a subway to help Busan people go to any place and opened in 1981. In the Busan city there are four subway lines, each lines there are stations which located at strategic place and tourist place. Almost all of the attractions at Busan city have subway station, making it easier for local and foreign tourists.

Each tourist attractions in the Busan city has a guide printed in various languages, such as Korean, Chinese, Japanese, and English. There has been no Indonesian guides causing tourists, workers, or students who will visit to Busan city attractive place have difficulty to finding information contained tourist attractions subway station. Therefore, the work of this thesis was made as a guide for the Indonesian people who will go to the tourist attractions Busan city by using the subway. In addition to the tourist attractions are also halal restaurants and shops or mosque, so Indonesian people mainly muslim don't worry about shopping for food and worship.

Keywords: *Guide, Information, tourism, Busan city, subway, Indonesian*
