Coffee has become one of the favorite beverage, it's functions not only as a way to prevent sleepiness but also, coffee has many benefits for health. Coffee has also become one of the measurement for lifestyle, social class distinguishing and the identity of individual or groups. Although coffee has become the favorite drink, it is not counterbalanced by the understanding of the society about the benefit of coffee that is focused the to body.

Based from that situation, it is now will be given information about the benefits of coffee that can be useful for both coffee lovers and non-coffee drinkers. The purpose of this final report is to design a media information such as website, so that the society could use the information obtained, so they could avoid the negative effects of coffee.

Keywords: Media Information, Positive and Negative Effects Coffee
