ABSTRACT

Henri Gunawan, with the title of Research: "Analysis of The Development of members savings As a source of loan funds on Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS)" under the guidance of Mrs. Windi Novianti, SE., MM.

The research was conducted on Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS). Phenomenon that occurs is not stable number of member savings that will affect the realization of the loan amount in KOPPALIS. The purpose of this study was conducted to determine the growing amount of members' savings and the realization of the loan amount.

The method used in this research is descriptive quantitative method. Research object is the number of member savings and loan amounts are realized on Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS). In this study the authors collected data on the number of member savings and the realization of the loan amount. The scope of research includes analysis of how the savings of members of the realization of the loan amount on Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS).

The results showed that the number of member savings on Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS) tend to be unstable because almost every month has increased and decreased, this was due to the increasing interest in the cooperative members to save money in the form of voluntary savings. The instability of the members' savings will affect the amount of loans granted by Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS) because big or small the realization of the loan is large or small depending on the amount of funds available to members Koperasi Pedagang Pasar Cihaurgeulis (KOPPALIS).
