This researched *is purpose to get to know how existence Lengser at ceremony adat Mapag Panganten in Bandung City. To answer about that problem so the researcher take a focus sub knowing, accepting and appreciating, to value the researcher variable is existence.*

This researched approach *is qualitative using a ethnography method. Getting the data by literate study from documentation and internet searching, also interview and observation. Researched informan is people who attend ceremony adat Mapag Panganten and release student SMP BPI 1 Bandung, as much as four people that get by accidental technique and key informan as much as two people that getting by purposive technique. Analysis technique is using data reduction, giving a data, take a result and evaluation.*

The researched result *show there still a society who accept Lengser presence in adat Mapag Panganten ceremony event in other ceremony, beside that society also accept the presence as prominent which is being figure in Sunda society, so in every ceremony also inviting Lengser event in formal and informal situation event, the presence of Lengser appreciate and waited by the society.*

The researched conclusion *show that antuasim of society with Lengser presence seing society really admit, accept and appreciate Lengser presence in adat Mapag Panganten ceremony, so then the existencion Lengser in adat Mapag Panganten ceremony still hang on in thue day situation.*

The researched suggest *for Sunda people keep avvoid Lengser in adat Mapag Panganten ceremony so it will never drowning as long as century. So as a next young generation still can see Lengser in adat Mapag Panganten ceremony or event other ceremony.*
