ABSTRACT

MUHAMMAD IRAWAN. The Role of East Forum Asia Latin America Corporation (FEALAC) to trade in Indonesia - Brazil*, Department of Internasional Relations,Faculty of Social and Political Sciences University Computer Indonesia, Bandung 2012*

This study discusses about how to contribute FEALAC in helping increase the volume of trade in Indonesia. Can be drawn from this discussion of two variables,namely, the role of FEALAC as independent variables and trade In Indonesia as the dependent variable.

Methods and research techniques used in this research. Meanwhile, the theoretical approach used in this study is the approach of the International Organization Theory. The hypothesis in this study is that, ***"Forum East Asia-Latin America Corporation (FEALAC) has arole in helping the trade in Indonesia through FEALAC Outreach Program which is marked by the meeting - a meeting of the Minister through the SOM (SeniorOfficialMeeting) to encourage trading activity, investment and export-import ofcooperation between Indonesia - Brazil "****.*

The test results in this study showed that, in the increasing volume of trade inIndonesia, FEALAC has made its contribution to the trade in Indonesia – Brazil through the program and the steps of, outreach program and Dissemination.

Based on test results in this study, it can be concluded that, overall, the role ofFEALAC help trade in Indonesia, it can be quite effective. This is due to an increased volume of trade in Indonesia. However, as a first step in increasing the volume of trade between Indonesia and Brazil, FEALAC has served effectivelythrough the implementation of measures and efforts to the maximum of the trade.

Key words: FEALAC, trading, and Indonesia-Brazil..
