ABSTRACT

Information System of Exporter and Importer Directory is the information system which developed to be matched to the needs of database that can accommodate exporters and importers data. In this research, exporter and importer are refer to Indonesian Exporter and South Korean Importer. Moreover, also in this research the mentioned system before is the system which developed to be utilized by ITPC – Busan.

ITPC Busan is the representative organization of Ministry of Trade Republic of Indonesia. ITPC is a non-profit organization under the guidance of the Directorate General of Export Development (DJ PEN) which can be found in Busan, South Korea. The main task of ITPC – Busan is bridging the relationship between Indonesian Exporter and South Korean Importer.

However, in the execution of these duties and as the spearhead of the national export development, ITPC - Busan have some technical problems that needed some development of the media as a means of promotion of Indonesian trading environment.

With the Information Systems Directory Importer Exporter and it is hoped will improve the quality of work and ease the process of introduction and promotion of trade between Indonesia.
