Pempek is one of traditional foods from Palembang. Kind of pempek have many variant , among pempek lenjer, pempek kapal selam (egg), pempek kulit, pempek pistel, and pempek keriting. This time pempek can be founds in some big cities in whole Indonesia.

Pempek are already known and exist in all major cities in Indonesia to be one of interesting to people who want to try pempek.Within existence pempek in all major cities in Indonesia, the information about pempek existence was made from mouth to moth. The fact is citizen doesn't know about variant of pempek when visiting pempek foodcourt.

After discovering the problem of pempek, could be solved by making a information media in form of book that can inform variant pempek also origin name of pempek , ingredient, and the short history of pempek. It is expected that people know about variant of pempek and seperately.
