Toddlers is a term derived from the acronym for the word under five years old. Toddlers is a period of growth of the body and the brain very rapidly in achieving optimal function. In general, said the child was born to a marriage with a woman with a man with no concerns that a person born to women although it never did keep saying child arraign.

Someone born without being able to choose where and what kind of family the physical when it is born. If you could choose for sure everyone would choose an established family with perfect physical. Every parent is expecting a baby have great hopes when the boy opened his eyes the first time in the world. Slight differences concerning infancy period, 0-2 years, 0-3 years, 0-5 years, but they all agree that the beginning of the first year of the child's life is the golden period. The role of parents are required to be able to educate and optimize the intelligence of children, but the development of holistic early childhood, which can develop optimally if healthy body, quite nutritional and learners well and properly. Developing child from developing many aspects physical, both coarse and fine motor skills, developing the cognitive aspects, social aspects and emotional.

Keywords: Toddlers, Healthy, Grow.
