Pendowo drum dubbed as the largest drum. The reason is because the diameter of the drum body is made of one large tree trunk hollowed center. So instead of the composition of some of the wood to form a tube. This drum in addition to cultural heritage, it is also used as an icon of Purworejo.

Elementary school students need to know about the history of this drum. Pak Eko Suryanto Service employee Culture Purworejo assume that in addition to the needs of science, it is also expected that the new generation will participate cared for together. Animated film is basically well-liked by children. Therefore expected the media animated film about the history of the making drum Pendowo, will be well received by the students.
