Dolanan kids stilts, a game that had always been at least before the independence of the Republic of Indonesia, during the Dutch colonization. It was as recorded in (Boesastra Dictionary Java WJS Poerwadarminto essay published 1939, p. 113), mentioned the word-egrangan stilts dolanan interpreted by using a tool called stilts. While the stilts themselves given meaning bamboo or wood to be ground (for feet) feet to move freely up and running.

At this traditional game starts stilts almost forgotten by the generations now, due to lack of information and learning about this game. Thus the importance of an information medium to support learning for children. The documentary is an information media solutions are very effective in conveying information than traditional game this stilts.
