This research under guidance:
Drs. Manap Solihat, M.Si

The purpose of these research was to know self concept of manusia gerobak in Bandung Ciy. To answered the goal research, so writers would ask three subfocus was self, significan other and reference group of manusia gerobak in Bandung City.

These research used qualitative method with descriptive study. The writer decide informant used purposive sampling technical and used library study and spacious study as collecting data technical. The informant which wound in research amount 6 person consist of 3 people of manusia gerobak, and 1 person as siginificant other, 2 person as reference group. And these research used data validity test by way of two methods was discussion with friends and used membercheck.

Resulted of research showed that manusia gerobak their self meaning was same with other family generally, they became scavengers to fulfill family necessity even though live in a waggon. Then significant other was not too influence manusia gerobak in Bandung City cause their job as scavengers was compulsion to gave alimony their family cause they hard to found a job, reference group which seen their as people diseas but manusia gerobak was not too influenced cause they felt that they were same with people generally and the difference of just their fate caused they live in a waggon.

Conclusion of these research from the resulted that manusia gerobak appraise their self concept as personal who never desperated to their life, and they felt free of life.

Suggestion these research was manusia gerobak must to able to develop self concept suitable with their self so was not negative opinion from around people with kept clean of environment and more confidence.
