Balai Pengembangan Bahasa Daerah dan Kesenian (BPBDK) is an organization who is under the auspcies of the department of education that had a main task to develop, educate, service, preservation of foreign language and art in West Java. As a facilitator of foreign language and art in West Java, still many of people nor parties that connected to this things yet surely not known forsure whereas or the function of BPBDK, because the information about BPBDK is still less.

Required of an act to more introduce BPBDK to all people so the performance and contribution of BPBDK to develop foreign language and art in West Java could be increased. The design of information media had to introduce and confirmed the existence of BPBDK. One of the solutions is to design information media by a website. In this site, beside there's an information about BPBDK, also there's display the result of all activity that has been done formed by documentation of photo, video, and anything else. BPBDK's website wished could attract attention of any visitors with a creative and informative design.
